

PLEDGE FOR TIGER CONSERVATION

I recognize and value,

- That tiger is an umbrella species with charisma, and is the flagship indicator of a balanced ecosystem;
- That a balanced ecosystem is crucial for life support, while providing numerous ecological services to the society;
- Being aware that the status of wild tiger is highly endangered in its natural habitat across Tiger Range Counties with a declining global population;

I hereby solemnly pledge:

- to protect the tiger and its wild habitat to ensure crucial ecological services for posterity;
- to contribute for fostering awareness for tiger conservation by factoring in its concern in areas where tiger is not the goal;
- to work for a balance between tiger conservation and ecologically sustainable development towards harmonious co-occurrence of human beings and the tiger;
- commit to conserve our natural heritage while making all efforts for the future sustenance of wild tiger.
